Students earned an average of **8 college credits in one year**—saving money & getting ahead.

532 Industry Certifications earned—proving skills and career readiness from day one.

National Technical Honor Society

JELCC students have the opportunity to be nominated and inducted into the National Technical Honor Society (NTHS) — the nation's premier honor organization for CTE students.

NTHS:

- Celebrates outstanding student achievements in CTE
- Provides scholarships and career advancement opportunities
- Recognizes excellence in today's competitive, skilled workforce

At JELCC, NTHS honors students who:

- ✓ Maintain a 3.0 GPA or higher
- ✓ Demonstrate leadership and strong character
- ✓ Participate in service learning
- ✓ Strive for excellence inside and outside the classroom

Career and Technical Student Organizations

Career & Technical Student Organizations (CTSOs) are youth leadership groups that connect directly to JELCC's CTE programs.

As an important part of CTE, CTOS give students the chance to:

- Build technical and leadership skills
- Gain real-world experiences in their career pathway
- Develop confidence, teamwork, and professionalism

At JELCC, CTOS are a co-curricular extension of the classroom, helping students apply what they learn in class to leadership, competition, and community service opportunities.
